

Hello everyone

I give you the next chapter. I won't be doing the previous chapter since someone already did it but since it didn't look like he was going to continue doing it, I decided to continue.

I want to thank Arman for helping me with translating.
Thank you very much.

As you know this is the last chapter that got translated in russian so I won't be able to translate anymore.

I will try to translate the japanese raw scans but I'm not sure if I will be able to translate them because I use translators and they can't translate japanese that well.

So if there is anyone willing to help me with my translation from japanese to english or chinese to english (I found some chinese raws aswell), I would very much like their help.

If there aren't any, then I will stop translating Illegal Rare.

Now that all the boring stuff has been dealt with,

Enjoy the chapter

ILLEGAL RARE

Indeed, I am the son
of the Silver family,
hereditary vampire
hunters...

So be it, to
answer your
question.

helped us in the
murdering and
capturing of a
variety of vampires.

For many
centuries our
silver

For every lampshade in my office at the academy, I imagine there are a million more...

OF course, the whole life revolves around them. I've used a lot of creative forms of leverage in my career for the same. We've built a better world, and we'll build a better world.

We had to pay with our lives to make the silver swords.

But now other hunters could use them!

I think you know that silver is harmful to humans...

Every day we would cook our silver.

Just as ordinary people boil curry every day.

Silver both
paralyzed her
and made
sure she didn't
die.

Absolutely
correct.

It's power
protected her
from
decomposing
—

So you were the
one who made
the sword for
that vampire?

Oh
really...?

Rest assured it will
work the same
way on black
vampires.

Silver bullets...!

Try the taste of
our family
silver on your
skin, vampire!

Eh...?

Be careful.
Stay away
from me.

I'm here,
Kawanishi.

Because this guy is
no monsterman.

There will soon be
silver bullets
whirling about.

Don't worry. I
do not miss.

Do you really
think you can
outrun a bullet?

Who...

who fell by the
Shiver family
silver!

You will become
another
vampire.

perhaps it's supposed to be a gun with her name's shade is gone.

for my Silver!

Shiver

Axel!!!

Hitting me with them
is as likely as you
being able to squirt
lemon juice in my
eyes.

Silver bullets?

No mercy for the vampire hunter.

What difference does
a silver bullet make if
it can't hit?

Chains, that sealed him, started shattering.

Seeing a vampire hunter, notating his old friend as a stuffed trophy.

He did not deliberately took a human form.

Asul, dark vampire.

So there was a kind of Asul in transition to a "monster".

As a natural reaction, mortals felt the pressure he gave off and cause their hair to rise.

He was just used to people.

And among them he was one of "them".

Such is the nature of the dark king of vampires.

Thus his rate of reaction and the ability of his body become much higher than that of others.

But now he is - "a monster".

Ugh

your prey - is
not a weak,
mortal vampire.

This
time

the name
of the one
who is
after me.

And now I
want you to
tell me a
name...

Never

The son of
Shiver will not
stoop down to
such a thing.

Four hundred
years ago, all
lived in awe of
the power of
my kind.

However, what
would a youngster
like you know?

Then I will simply
ask your blood

is that so?

Sometimes it is
necessary to use
vampire fangs
for their
purpose.

Also this form
requires a lot
of blood.

.....

In ancient times,
I used it once, at
my own
coronation.

Fool. It's part
of the
ceremonial
appearance
of "being".

I thought that
was your true
form that
time.

What a
stubborn
fellow.

What's
wrong, can't
wait to go
back to your
mayor?

When you
have lived for
so long, it is
not important
which of the
disputes is
real.

Wow...

Wait...
what
does that
mean?

Mayor...?

my
enemy!

She is

He gets his
order
from the
mayor of
this city.

I learned it
from
drinking his
blood.

is halfway...
made from
silver ?!

お
お
お

His
body...

The blood that
Axel drank, too...!

But then...

Axel!

AARRG!!!

Ah, hunting
- it's so much
fun...

Careful,
Mayor,
don't
stumble in
the dark.

Nothing
compares to it.
